## President’s Message

May is here and will be a busy month with all that is available to do this month. Locally our meeting is the 17th and looks to be a very good one. Art Michaud with AC Propeller Works is going to be giving this month’s seminar on all you need to know about propellers. After talking with Art on the phone, this seminar is something that you don't want to miss. Plan on being there as close to six as you can because Art has a two plus hour drive home after the seminar. See you all there.....

Reid

## EAA International Learn To Fly Day

Saturday, May 21, is International Learn to Fly Day. Make plans now for your chapter to share the fun of flying with friends and neighbors in your area.

You're encouraged to organize your event around **adult** orientation flights. Think of this year's Learn to Fly Day as the first step towards a year-round adult version of our successful EAA Young Eagles program.

Your chapter members take participants for a short local flight. Afterwards, you can offer them a free EAA membership. It's a full EAA membership, good for six months. That makes it even easier to welcome new chapter members.
